Descripción

The GG400E is a zero-emission electric loader with 400 kg capacity, powered by a 60V/150Ah lithium-ion battery providing 8-10 hours of work time. At 1060 kg with a 0.2 m³ bucket, it operates quietly with no exhaust — making it perfect for indoor warehouses, livestock barns, greenhouses, and urban areas with noise restrictions. Ideal for eco-conscious businesses, indoor facilities, and operators working in enclosed or sensitive environments.
