Profundidad de excavación	2300 mm
Potencia	15 HP
Velocidad	2.5 KM/H
Motor	Kubota D902
Radio de trabajo	4050 mm

Descripción

The GG1700C is the cabin-equipped version of the GG1700, adding heated weather protection to its 1711 kg frame with Kubota 15 HP engine and joystick controls. It's one of the most capable machines in the mini excavator range, offering near-midi performance with full operator comfort. Perfect for contractors running longer projects in exposed conditions who need serious digging power and cabin protection without moving up to a full midi excavator.
