Parámetros

Denominación	Valor
Peso	2200 kg
Anchura	1200 mm
Altura	2280 mm
Longitud	3329 mm
Profundidad de excavación	2050 mm
Capacidad (m³)	0.06 m³
Motor	Yanmar Engine 3TNV80F

Descripción

The GT2000J shares the GT2000's specifications — Yanmar 21 HP, 2200 kg, heated cabin with A/C — but adds double-speed travel for faster repositioning across job sites. This makes it ideal for operators who frequently move between digging positions or work on spread-out sites. Designed for professional contractors who value both powerful excavation capability and the efficiency gains of rapid on-site travel between work points.
