Descripción

The GG04G is the tracked version of the GG04, offering superior traction and stability on soft, muddy, or uneven terrain. At 800 kg with 400 kg load capacity and a Briggs & Stratton 17 kW engine, it goes where wheeled machines struggle. Ideal for operators working on wet ground, slopes, sandy soil, or rough terrain — farmers, forestry workers, and contractors who need reliable grip and stability in challenging ground conditions.
