

GG06T

Telescopic loader 25hp (max 600 kg)

Ref.: G301-24099

Descripción

The GG06T features a telescopic arm with 3000 mm dumping height, giving it superior reach compared to standard loaders. Powered by a Kubota 25 HP engine with 600 kg capacity and 0.35 m³ bucket at 1850 kg. The extended height makes loading trucks, stacking materials, and reaching over obstacles effortless. Ideal for farms, construction sites, and warehouses where standard loaders can't reach high enough for the job.
