Descripción

The GG010 is a robust articulated loader with 1000 kg capacity, powered by a Changchai 390 diesel engine (25 HP) with 4x4 drive. At 2850 kg with 0.5 m³ bucket and fully hydraulic steering, it steps up in capability from the GG09 series. Comes with bucket and pallet forks included. Ideal for growing construction businesses, active farms, and material yards that need a stronger, more stable loader for heavier daily material handling.
