Anchura de la cuchara	380 mm
Profundidad de excavación	1650 mm
Radio de trabajo	2890 mm

Descripción

The GG800 is a robust mini excavator weighing 994 kg, featuring additional counterweight for improved stability during digging operations. Powered by a Koop 192F engine (7.2 kW), it delivers confident performance in trenching, foundation work, and landscaping tasks. Ideal for small to mid-size contractors who need a stable, well-balanced machine for everyday earthmoving. The extra counterweight gives it a planted feel that inspires confidence on slopes and uneven ground.
